

HOMECAIR

VENTILATION AND VACUUM

Ken McCullagh
Clonlea Lodge
Dublin

30th November 2016

Dear Ken,

Thank you for your request for information and a quotation on our Villavent Heat Recovery Ventilation and Central Vacuum Systems.

For 13 years we have been setting the standard while installing our HRV systems into the ever increasing number of modern, energy efficient homes, with our system having several benefits over others.

- Market leading Double Skinned Ventilation unit with the highest Scandinavian build quality available.
- Ventilation System Capacity based on the highest European standards.
- Negates the need for inefficient trickle vents and noisy extractor fans.
- Counter flow & Rotary Heat Exchangers.
- Automatic Summer Bypass.
- Our new RadiCal EC fans: ultra quiet, ultra efficient.
- Acoustic and thermally insulated ducting fitted as standard.
- EU7 Fresh air Filter with Allergy approval.
- Heater element fitted as standard.
- Complete design, installation and commissioning service provided. Homecare Systems Ltd has developed our experience in design, installation and commissioning of Villavent Systems into homes for 13 years. As such we can offer a complete and superior service to all our customers. We ensure all our installations are fitted with the highest level of care and expertise.
- We have a further 40 years experience to call on, gained from the operation of these systems in Scandinavia and North America.

The pioneering Rotating Heat Exchanger is designed by a Scandinavian company specialising in whole house ventilation and heat recovery for over 40 years.

Please do not hesitate to contact me with any queries.

Yours, Eugenio Mallon.
