(00) PRELIMINARIES (Cont)				
(Cont) 2. Contract (Cont) 2.5 Obligations and Restrictions Imposed by the Employer (Cont) n) Any other obligation or restriction (Cont) (n44) Control of Cost				
If the QS issues details of a proposed instruction with a request for an estimate of cost, submit such an estimate without delay and in any case within 3 working days.		item		
All variations are to be advised to the Architect and Quantity Surveyor within five (5) working days. Historic variations will not be entertained at Final Account stage.		item		
(n47) Shop Drawings				
The contractor shall prepare and issue for inspection by the architect / project manager detailed shop drawings of the entire installation in good time prior to commencement.		item		
In particular, the contractor shall issue to the architect in good time fully detailed 1:5 scaled drawings of all weathering details including, ridge, verge, valley, parapet gutters, smoke vents, extract vents, expansion joints and all other penetrations of the membrane.		item		
All dimensions are approximate and, accordingly, all dimensions and tolerances shall be checked on site before the work is put in hand and prior to installation.		item		
(n48) Compliance with Specifications				
Allow for costs in connection with compliance with any additional conditions imposed by the architect's specification document.		item

ENABLING WORKS (COSTS TO BE APPORTIONED TO PHAS	SE 2, 1	BUT (CARRII	D OUT IN F	HASE 1)
The nature of the project requires the works to be carried out in 2 Phases. The demolition and extension to the existing house (Phase 1) must be completed prior to construction of the new dwelling (Phase 2). It is vital that the Phase 1 works are carried out in as short a time as reasonably possible. The client intends to remain in the existing house for the duration of the works, where possible. The costs detailed below will be carried out in Phase 1, with the costs apportioned to the Phase 2 works Refer to existing drawings	3E 2, 1	вит С	Note Note		HASE 1)
The demolition requires the existing kitchen and and utility room to be demolished and a new gable wall rebuilt The contractor should visit the site and cionsider the demolition and phasing requirements taking account of accessibility			Note Note		
_					
No works envisaged to the first floor Tenmporary protection of existing finishes to be included in rates below; refer to architect's specification The contractor should allow here for any costs in relation to phasing of the works		1	Note Note
